2 Lab Tamagotchi Features

Welcome, new researcher! Our goal is to discover all we can about Tamagotchi. You will head out on Fieldwork, gain hands-on experience with Tamagotchi in your Room, and much more!

Research Tamagotchi

Gather food on an Egg Hunt and head out on a Tamagotchi Search! The Tamagotchi you meet will be recorded in your Lab Log. (→P10)

Create Items

Assist with research to earn Gotchi Points for materials in the Shop. Head to the Craft Room to create Outside Toys and Deco Items. (→P10)

That's not all...

Play in the Garden

Place an Outside Toy you've crafted, then invite a Tamagotchi to see. The Garden is yours to design! (→P15)

Earn Points

Play mini games and help with research. The Gotchi Points you earn can be used to get materials and tickets. (→P16)

Connection

Connect and play with the Tamagotchi Paradise (sold separately)! Send items you've made and release the Tamagotchi you've raised. (→P18)

3 Lab Device

A Button

Select and move items.

B Button

Confirm selection.

C Button

Return to previous screen.

Connection Port

Used to connect with a Tamagotchi Paradise device.

microSD Card

Used for device updates. See p. 22 for details.

*microSD is a trademark of SD-3C, LLC.

Reset Button

To save your played data, select CONTINUE after pressing the reset button. Selecting RESET ALL will erase all of your data.

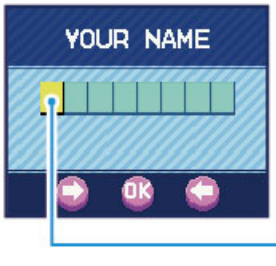

4 Entering Numbers/Letters

If a screen requires you to enter numbers or letters, move the cursor to make your desired selections. You'll need to use this process to input the time/date, your birthday, username, and more.

Entering Numbers

Scroll to next number...A Button
Scroll to previous number...Press A Button while holding C Button
Confirm/Proceed...B Button
Return to previous selection...C Button twice

Entering Letters

Cursor

1. Move the cursor and select a location to enter a letter in. (The cursor will blink until a selection is made.)

Confirm location...B Button
Move cursor to next location...A Button
Move cursor to previous location...C Button

Current row

2. Select the row with the letter you want. (The menu is displayed in the following order: letters > numbers > symbols > smileys > end.)

Select row...A Button
Confirm row...B Button

3. Select and confirm a letter/symbol.

Select letter...A Button
Confirm letter...B Button

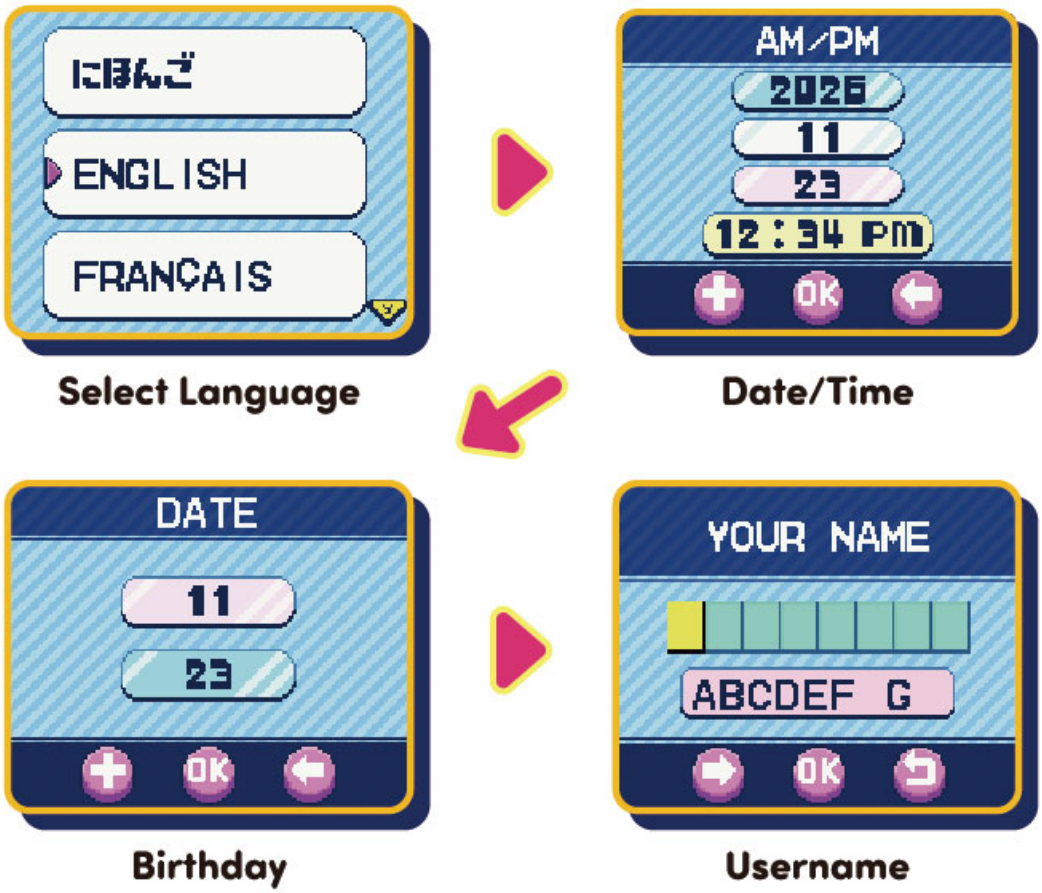

Confirmation Screen

4. Select YES on the confirmation screen to finish typing.

How to Reach the Confirmation Screen (3 ways)
Choose "end" during row selection and press the B Button.
Move cursor to the last input field and press the A Button.
Enter a letter into the last input field and press the B Button.

5 How to Play

Turn the device on and follow the directions on the screen to configure initial settings. For more info on entering letters/numbers, see p. 5.
*Once set, the language cannot be changed unless the device is reset.

Select Language **Date/Time**

Birthday **Username**

After Initial Setup

Once the device has been set up, you will enter your Room. Follow the onscreen directions, then press the B Button to head out on a Tamagotchi Search! Some buttons cannot be used during this time.

6 Your First Tamagotchi Search

You can head to your Room after initial setup. Your Room is your lab. It's where all of the fun and learning begins!

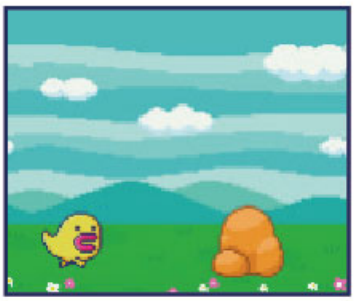

Get started with the tutorial

Enter your Room!

Follow directions and press the B Button

Head out on a Tamagotchi Search!

Meet Tamagotchi

Record in Lab Log

Tamagotchi you meet are recorded in the Lab Log

*The tutorial destination cannot be selected.
*There is no selection screen for food or the Dododo Ticket.

Welcome, Tamagotchi researcher! Your job is to meet as many Tamagotchi as possible and record them in the Lab Log.

7 Room (Home Screen)

Access various menu items from your room.

Computer

Use the Shop and Connection.

Clock

Confirm the current time.

Door

Go to another room or head out to Fieldwork.

Tamagotchi

Invite Tamagotchi from the Garden to play with you.

Select/Confirm menu item

Use the A Button to move the cursor, then confirm your selection with the B Button.

8 Room Features

Play with Tamagotchi in your Room

MINI GAMES

Invite Tamagotchi in the Garden to play with you in your Room!

Select a Tama

A menu opens

When you select a Tama in your Room, a menu will open. Select PLAY and choose from 3 games to play.

Hide & Seek

Find the Tamas hidden in three different places!

Press the A Button to switch between locations, and then press the B Button to confirm.

Pet

Give a Tama some gentle pets.

Start with the B Button to move the hand-shaped cursor right. Once your hand reaches the edge of your Tama, press the A Button to pet in the other direction. Keep alternating directions to pet.

Note: If you switch directions too early, your Tama will become irritated and you won't be able to continue petting for a moment.

What's Up?

Listen to the sound from behind the curtain and guess how the Tama is feeling!

After hearing the sound, press the A Button to select an option, and then press the B Button to confirm.

Note: If you have device sounds turned off, select YES on the screen before the game starts to play sounds during the game.

Collecting Treasures

When you play with a Tama, the Tama may sometimes give you a Treasure. You can see what you've collected by selecting a Tama in your Room, then selecting TREASURES from the menu.

Accessed via Door

9 Fieldwork

Fieldwork gives you access to Egg Hunt, where you can gather food to take on a Tamagotchi Search.

Egg Hunt | Fieldwork | Tamagotchi Search

Egg Hunt MINI GAMES

Different mini games and the results you achieve in them will determine what food items you obtain. Play them and see what you get!

Fluffy Catch

Float across the sky and gather eggs.

Hold the A Button to float up, and let it go to drop down. Adjust your height to pick up eggs.

Egg Tree

Send the Shirotamas jumping after egg trees. Don't let the Shirotamas fall!

Press and hold the A Button to move the jumping pad to the left, and the B Button to move it to the right to help the Shirotamas jump. The jumping pad will continue moving until you release the button.

Egg Well

Time your button presses with the icons on the screen to make the Shirotamas dance.

Press the A Button quickly when you see "A", and the B Button when you see "B". If both "A" and "B" appear, press both buttons at the same time.

Note: If you press the wrong button or press it too slow, the Shirotamas will stop dancing for a moment.

Build a Bridge

Link the bubbles and collect the eggs on the other side!

Bubbles will move up and down. Press the A or B Button to stop a bubble's movement. If it lands next to another bubble at the same height, those bubbles will be linked.

Tamagotchi Search

MINI GAMES

Decide your destination, then select three items of food to take with you. These choices may change which Tamagotchi you meet, so be sure to try out different combinations of destination and food!

Select destination

Choose 3 items of food

Move with Dododotchi

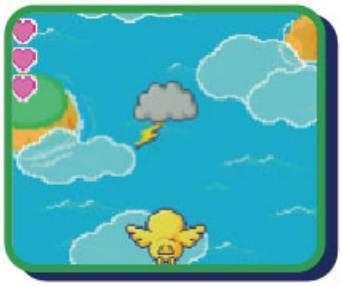

Your method of travel will vary depending on the destination. Ride Dododotchi and visit different fields!

Land / Tropical / Tamagotchi Planet

Run and jump. Avoid the rocks!

When you approach a rock, press the A or B Button to jump over it.

Water / Forest / Ice

Move left and right to dodge the thunderclouds!

Move left with the A Button, and right with the B Button.

Sky / Cosmic Planet

Eat donuts to gain energy and fly the skies!

Move left with the A Button, and right with the B Button to pick up donuts.

Note: Once the gauge reaches zero, the game ends. Picking up a donut fills a small amount of the gauge.

The better you move and the further you get, the more Tamas you can meet!

Note: You cannot quit Tamagotchi Search in the middle of the game.

Use Dododo Tickets

A special Dododotchi will appear when you use tickets. You'll be able to skip the mini game and arrive straight at your destination with great results guaranteed! Dododo Tickets can be purchased from the Shop.

Meet Tamagotchi

Leave food at your destination and wait for Tamagotchi to arrive.

Leave food and wait

Meet Tamagotchi

Record in Lab Log

Fill the Lab Log

Tamagotchi you meet are recorded in the Lab Log. Record lots of Tamagotchi to raise your researcher level. Confirm your current level via User Info.

Invite to Garden

The Tamagotchi you meet can be invited to the Garden or your Room. For more details, see p. 15.

Head out as much as you like!

Switching the food you offer might change which Tamagotchi you meet, so be sure to visit many places, even those you've visited before!

10 Laboratory

Here, you can check records of Tamas you've met or mix and match registered Tamas to simulate new ones.

First, select the Door, then select LABORATORY. Then, you can choose between LAB LOG and DOCKING SIMULATOR. Move the cursor with the A Button and confirm with the B Button.

Using the Lab Log

Select a Field in the Lab Log, then select the Tama you want to examine.

Select a Field

Select a Tama

Viewing Tama Logs

Flip page with A Button

On the log screen, you can flip pages using the A Button. Press the C Button to return to the Tama selection screen.

Simulating Tamas

From the "Docking Simulation" menu, select an option.

Select SIMULATION, then follow the guidance on the screen. Select Fields and Tamas until you have 3 Tamas selected.

Read the instructions

Select a Field

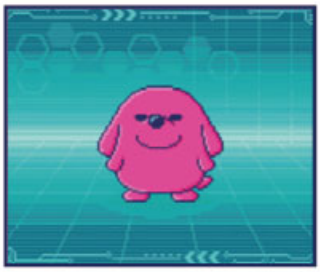

Select a Tama

Note: Press a button or wait a moment to go to the next step of the instructions.

Once you have 3 Tamas selected, press the B Button to start simulating! Let's see what you get!

Start with the B Button

View results

Want to Save the Results?

Once the results appear, either press a button or wait a moment to continue. A "SAVE DATA?" prompt will appear. If you like your results, select YES. If you don't like your results, you can select RETRY to run the simulation one more time with the same Tamas.

You can save up to 12 different simulation results.

If you want to see your saved simulation results, go to the Docking Simulator menu and select SIMULATION RESULTS.
Note: If you want to save a new result after you already have 12, you will need to choose one of your saved results to delete.

11 Craft Room

How to Craft

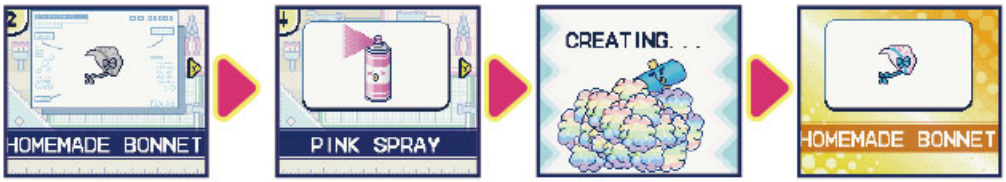

Select an item to make from the available materials. The more materials you gather, the more items you can make. Try your hand at crafting lots of different Outside Toys and Deco Items! See p. 17 for details on purchasing materials.

Create Outside Toy

Select Decor Plans → Choose Move Powder → Select Color Spray → Craft item → Done!

Create Deco Item

Create Deco Item → Select Color Spray → Craft item → Done!

Crafted Items

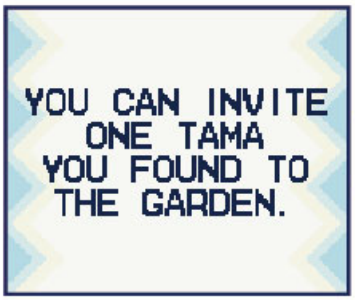

Outside Toys can be placed in the Garden. Deco Items can be used to decorate User Info. Connect and send your favorites to your Tamagotchi Paradise! For more details, see p. 19.

12 Garden

Invite Tama

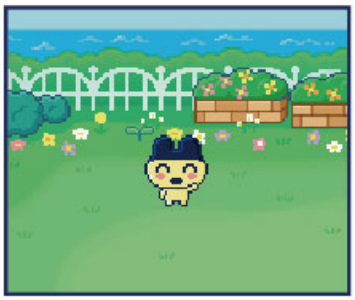

Tamas you meet at least 2 times in Tamagotchi Search can be invited to the Garden. To do this, select YES when "INVITE TO GARDEN?" appears.

Instructions after meeting

Select YES to invite

At the Garden!

If it's full, switch out!

You can invite up to 6 Tamas to the Garden. If you invite a new one to the Garden after you already have 6, you need to choose a Tama to switch out.
Note: Press the C Button if you don't want to switch any Tamas out.
Note: If you can't find a Tama you invited to the Garden, press the A Button on the Garden screen to switch to a full view of the area.

Use SEND FOOD or LAB INVITE from the CONNECTION menu to release a Tama you're raising on your Tamagotchi Paradise device to your Lab. See p. 27 and p. 31 for more details.

The Garden Menu

Press the B Button in the Garden to place Outside Toys or invite Tamas to your Room in the Lab.

Placing Outside Toys

Place Outside Toys you've made in the Craft Room to watch your Tamas play. If you don't have any Outside Toys yet, try making some in the Craft Room!

Select OUTSIDE TOY, then PLACE, then select a spot to place an Outside Toy. Finally, select YES in the confirmation screen to finish placing the toy.

Select an Outside Toy

Select a spot to place it

Select YES to finish

Note: If you try placing an Outside Toy in a spot that already has one, you'll swap the toys with each other.

Inviting Tamas Over

Invite your favorite Tamas in the Garden to your Room in the Lab and pamper them with fun mini games!

In the Garden menu, select LAB INVITE, then select a Tama. Select YES on the confirmation screen, and the Tama will appear in your Room.

Select a Tama to invite

Select YES to invite

At your Room!

Note: You can only invite one Tama to your Room at a time. If you already have one in your Room when you invite another, the Tamas will swap places with each other.

13 Part-Time Job

MINI GAMES

Play mini games to help with research and earn Gotchi Points.

Dig for Fossils

Dig into the ground to find rare fossils!

Move Onsenmoguratchi left with the A Button, and right with the B Button to pick up fossils.

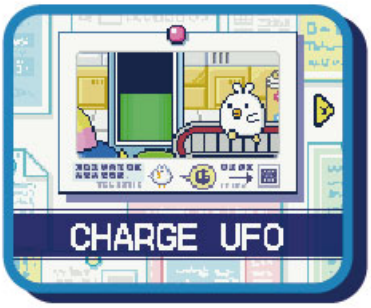

Food Factory

Help the factory by removing the burnt food!

When burnt food appears directly above the mechanical arm, press the A or B Button to throw it out. Don't grab any food that isn't burnt!

Charge UFO

Run to charge the UFO!

Press the A and B Buttons alternately and quickly to make the Shirotamas run and charge the meter.

Note: Pressing just one button won't do anything to help. Remember to press the A and B Buttons alternately.

Organize Documents

Organize the research materials using the pictures on the spines as a guide.

Press the A Button to select a location, and then press the B Button to confirm and switch two adjacent books with each other.

Note: Research materials in the correct place will glow.

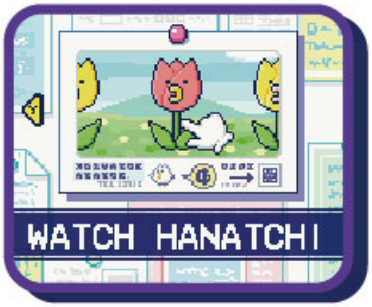

Clean Items

Clean the research tools.

Move the sponge left with the A Button, and right with the B Button. If a tool gets close to the sponge in the middle of the screen, press the two buttons alternately to clean the tool. Make sure all the tools are sparkling clean before they pass you!

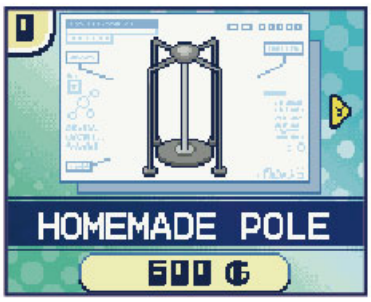

Watch Hanatchi

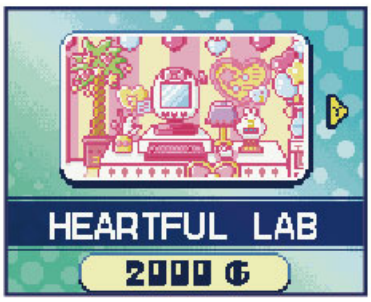

Observe Hanatchi and spot the differences.

When you spot a Hanatchi that looks different, press the A Button to move the cursor, and then press the B Button to confirm.

Gotchi Points can be used in the Shop.

Computer Features

At the computer, you can shop for items, check user info, connect with a Tamagotchi Paradise device, and adjust the settings on your My Lab Tamagotchi device. Move the cursor on the menu screen with the A Button, and confirm with the B Button.

Select COMPUTER

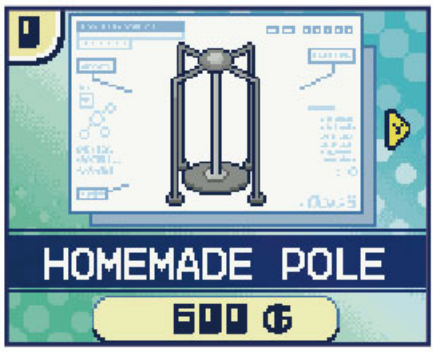

Select menu

14 Shop

Select SHOP from the menu.
Materials, Room remodeling designs, and Dododo Tickets are available here!

Shop Lineup

Craft Materials

15 User Info

Under USER INFO, you can view your researcher card, the Deco Items you've created, and even your researcher level!

Researcher Card

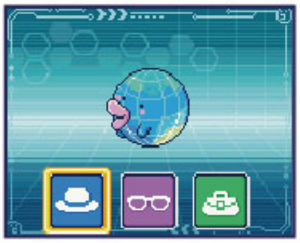

Researcher Card

Planet View

Select USER INFO, and your researcher card will be displayed. Here, you can see your name, birthday, and researcher level. Press the A Button to check on your planet.

Deco Items

Select category

You can invite up to 6 Tamas to the Garden. If you invite a new one to the Garden after you already have 6, you need to choose a Tama to switch out.
Note: Press the C Button if you don't want to switch any Tamas out.
Note: If you can't find a Tama you invited to the Garden, press the A Button on the Garden screen to switch to a full view of the area.

You can't choose a category that contains no items. Try making something in the Craft Room!

Decorating Your Planet

Select an item

Select YES to place

Use the A Button on the Deco Item screen to select a Deco Item, then press the B Button to confirm. When "IS THIS OKAY?" appears, select YES to place it on your planet.

16 Connection

Connect with a Tamagotchi Paradise device (sold separately) for more ways to play!

Send Item	Send created items to your Tamagotchi Paradise device. (→P3)
Send Food	Send Special Food and take care of the Tamas generated by the simulation results. (→P4–5)
Playdate	Play together and hatch eggs. (→P6–7)
Lab Invite	Invite Tamas raised in your Tamagotchi Paradise device to the Garden. (→P8)

Features and Device Compatibility

Send Item **Playdate**

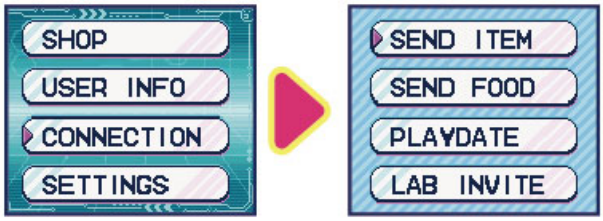

Send Food **Lab Invite**

Exclusive to Neon Planets

How to Use the Connection Function

Select CONNECTION from the Computer in your Room. Use the A Button to select the menu, then press the B Button to confirm.

Select CONNECTION **Select menu**

Connecting the Two Devices

If you are using the Tamagotchi Paradise dedicated case (sold separately), remove the star-shaped dial cover before connecting the device.

My Lab Device **Paradise Device**

Once both devices are ready, it's time to connect them. Check the menus to see which device's button to press to begin the connection.

Precautions While Connected

Do not separate the devices while connected.

Keep a firm hold of each device during connection.

Send Item

Items can be sent to all Tamagotchi Paradise devices

Send Outside Toys and Deco Items you've made in the Craft Room to a Tamagotchi Paradise device.
Sent items will be available in the Tamagotchi Paradise device's Shop.

My Lab Tamagotchi device

Select CONNECTION, then SEND ITEM to choose an item type and item to send. Follow the on-screen instructions and select YES when prompted.

Tamagotchi Paradise device

Select CONNECTION, then DOWNLOAD.

Once the two devices are linked, press the B Button on the My Lab device to begin connection. Keep the devices close together until the sent screen is displayed on the My Lab device.

Purchase Items from Shop to Use

Downloaded items will be available for purchase in the Tamagotchi Paradise Shop.
Items will not disappear from the My Lab Tamagotchi device, so don't worry!

Items of the Same Type Are Overwritten

Sending an item of the same type will replace the old one on the Tamagotchi Paradise device. Items already placed on fields or planets will also be replaced.

Send Food

Special Food might give you access to raising simulation Tamas. It can be sent to a Tamagotchi Paradise – Neon Planets device (sold separately).

Precautions for Receiving Items on a Tamagotchi Paradise Device

- Special Food can only be received once your Tama has reached the Adult stage.
- Receiving Special Food will release the Tama you are currently raising into either the Paradise device's field or the My Lab device's Garden, and you will have to raise a new Tama from an egg.
- Make sure to check which planet the Tama can be raised on, which will be displayed before confirmation of receipt.

My Lab Tamagotchi device

Select CONNECTION, then SEND FOOD to choose a form to raise from your saved simulation results. Press the B Button to proceed, then select YES when asked to confirm before sending.

Tamagotchi Paradise device

Select CONNECTION, go to SPECIAL FOOD, and select GET FOOD.
Select YES after reading the explanation, then choose where you want to release the Tama you are currently raising.

Notes: Link the two devices, then press the B Button on the Paradise device to begin connection. Keep the devices close together until the menu screen is displayed on the My Lab device.
If you choose to release the Tama you are raising on the Paradise device into the My Lab device, and there are already six Tamas in the My Lab device's Garden, you will need to choose a Tama to be replaced.

Use the sent Special Food to raise Tamas

Tamagotchi Paradise controls after receiving Special Food

Check How to Raise Your Tama

Select CONNECTION, go to SPECIAL FOOD, and open RAISING.
Press the A Button to switch pages and learn about the Tamas you can raise, the planets you can raise them on, and the names and appearances of Special Food.

Sample of information available

Tamas

Planets

Names and appearances of Special Food

Feeding Your Tama Special Food

Received Special Food can be found under MEAL, then FOOD.
Choose the appropriate food after confirming it under RAISING, then feed it to your Tama.

Select FOOD

Select the received food

Time to eat!

**Meet these three conditions,
and your Tama may grow into the form you desire!**

1. Raise the Tama on the planet displayed under RAISING.
2. Feed the Tama Special Food when a Kid.
3. Feed the Tama Special Food when Young.

Note: Once your Tama becomes an Adult, this Special Food will no longer be displayed under FOOD.

Playdate MINI GAMES

Select PLAYDATE to connect to a Tamagotchi Paradise device and play mini games. If successful, you might see a new egg born on your Tamagotchi Paradise device, leading to a new generation of Tamas!

My Lab Tamagotchi device

Select CONNECTION, then PLAYDATE, and choose a Tama from the Garden.
Note: If there are no Tamas in the Garden, use TAMAGOTCHI SEARCH to summon Tamas to the Garden first.

Tamagotchi Paradise device

Select CONNECTION, then PLAYDATE.

Link the two devices, then press the B Button on either device to begin connection. Keep the devices connected while playing the mini games, and keep them close together until the menu screen is displayed on the My Lab device.
Note: Mini games can be controlled using the My Lab device.

Mini game controls

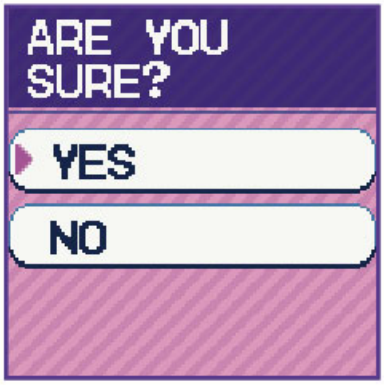

Remember the order in which the buttons light up. When it's your turn, wait until the countdown is complete, then press the A, B, and C Buttons on your My Lab device in the correct order within the time limit. When two buttons light up simultaneously, those buttons need to be pressed simultaneously.

Successfully Completing a Mini Game

If successful, you might be able to breed a new egg on your Paradise device, leading to a new generation of Tamas.
Note: When breeding is triggered, keep the devices close together until the menu screen is displayed on the My Lab device and breeding has finished.

When breeding is available, the message BREED? will be displayed on the Paradise device.

Select YES when prompted with the message BREED?, then YES again after being asked ARE YOU SURE?

Note: Breeding is unavailable for some Tamas on the Paradise device.
Breeding is also unavailable if your Tama has not grown sufficiently.

Lab Invite

Tamas raised in Tamagotchi Paradise - Neon Planets (sold separately) can be released into the My Lab device. When a Tama arrives in the My Lab device, a new egg will appear on the Tamagotchi Paradise device.
Notes: Only Adult Tamas can be released in the My Lab device.
Once released, Tamas cannot be returned to the Paradise device.

My Lab Tamagotchi device

Select CONNECTION, then LAB INVITE.
Note: If there are already six Tamas in the Garden, you will need to choose a Tama to be replaced in order to release a new Tama from the Paradise device.

Tamagotchi Paradise device

Select CONNECTION, RELEASE INTO LAB, then YES on the confirmation screen.
Note: Can only be selected after the Tama has reached the Adult stage.

Once the two devices are linked, press the B Button on the Paradise device to begin connection. Keep the devices close together until the menu screen is displayed on the My Lab device.

A new Tama i your Garden!

Keep the devices close together until the displays are complete on both devices and the My Lab device returns to the menu screen.

17 Settings/Troubleshooting

Use the Computer in your Room to open the settings.

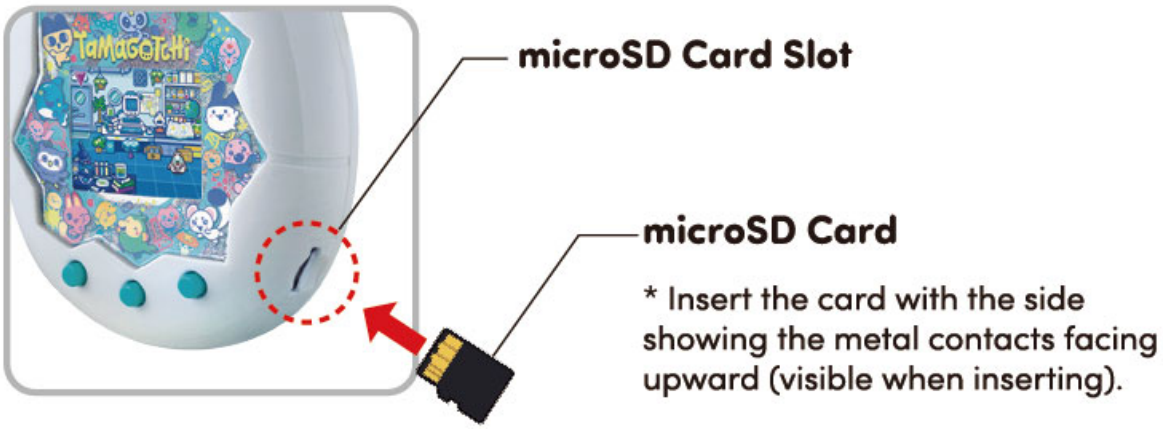

Sound	Change the volume
Brightness	Change the brightness of the screen
Date/Time	Set the date and time

Update

Used when updating the device via microSD card. See the official website for more information on updating.

● How to insert a microSD card

First, push the light blue dummy card in the "microSD card slot" on the side of the device all the way in until it clicks. When you let go, the dummy card will pop out of the device, so pull it out with your finger.
Next, insert the microSD card into the microSD card slot until it clicks into place.

Compatible with microSD cards and microSDHC cards featuring a storage capacity of 2–32 GB.
Incompatible with memory cards featuring a larger storage capacity.
All operations have been verified in-house using the below microSD cards.
*microSD is a trademark of SD-3C, LLC.

Troubleshooting

I can't connect

Ensure the connection ports of both devices are securely in place, then wait for the connection to complete.

The screen says the battery is low

Replace the batteries or have an adult help you do so.
For details, please refer to the instruction manual included in the package.

I need help with my Tamagotchi Paradise device

From the official Tamagotchi Paradise website under "MANUALS," be sure to also check the "Growth Guide" for the Tamagotchi Paradise device.
